# OUR STORY

---

Hickory Hardware® is a value brand marketed by Belwith® Products, LLC. The roots of the company run deep, beginning with the birth of a small foundry in Michigan in 1893. From the humble beginnings of the Keeler Brass Company®, international corporate ownership and multiple mergers, we now emerge as Belwith® Products, LLC, a privately owned and operated firm.

Belwith Products has hundreds of years of staff experience, a living library of designs (dating back to 1900), and a passion to develop unique, inspired hardware. This positions us as the industry leader in kitchen cabinet, architectural, and furniture hardware.

Adding dramatic accent and subtle nuance to your kitchen cabinetry springs from our commitment to Old World craftsmanship, exemplified in every piece of decorative hardware we design and market. By including methods of pencil sketching, hand modeling and finishing, the most modern computer manufacturing tools only serve to compliment and enhance our design process. Technology and engineering back our products while artistry remains front and center.

Knowing design and development are only two facets of operational excellence, significant investment has been made in a world-wide sourcing and distribution network as well. Our engineers travel the globe selecting

world class manufacturers, and our quality assurance team maintains our high standards for functional quality, finish, and craftsmanship through rigorous physical testing and continual product analysis.

Our material management team utilizes the latest in forecasting and material flow technology. We fulfill customer orders on-time and complete direct from the factory, or through our expansive distribution center in Grandville, Michigan.

Belwith Products is comprised of unparalleled experience and talent. Our Grandville staff is fully equipped to handle the needs of retailers, showrooms, OEM manufacturers, and designers to create everyday designs and custom products.

Our commitment to provide consumers with a variety of trendsetting styles and finishes is proven through our extensive assortment of products, unique and convenient packaging, as well as displays and planograms which are always evolving to match current trends. Every step in product development is crucial and we take each step to the next level to ensure we provide the best and freshest products. The Hickory Hardware brand reflects our vision to offer the very best products and service to customers today, while providing continuous improvement in our product offerings and service for tomorrow.
